

Job Announcement 2019 Architect in Training

About Us

Established in Chico, California in 1983, NorthStar is a team of professionals who exist to consistently provide the best designs, plans and solutions for our clients. We have experts in the fields of engineering, architecture, surveying, and environmental planning.

Our core purpose is to develop People and to enhance our communities.

Our passion—moving projects from concept to completion, tackling every obstacle with determination and creativity until a solution is found, and having fun doing it, is why we come to work every day.

We exist to solve problems, learn, guide, teach, and to ultimately be the best team of design and infrastructure experts.

To Apply

Disclaimer: This job announcement is only a summary of the typical functions of the job and is not an exhaustive or comprehensive list of all possible job responsibilities, tasks, and duties.

Equal Opportunity Employer

NorthStar is seeking an Architect in Training to join our Architecture team. An Architect in Training is a recent graduate with a degree from a NAAB-accredited Architecture program on a path to licensure with enrollment in NCARB Architectural Experience Program (AXP).

Duties include:

- Utilizing Building Information Modeling (BIM), primarily Revit; prepare and modify architectural documents at the direction of the project designer or more senior design professionals, ensuring alignment with design intent and firm standards
- Develops solutions to technical and design problems
- Integrates Sustainable Design solutions into projects
- Prepares 2D and 3D design materials for client/project team review
- Performs product research; assists project designers and project architects with material selection and system research
- Fosters a commitment to design excellence and client service
- Prepares calculations, plans, models, details and specifications

The ideal candidate will have:

- Excellent time management, prioritization, and organization skills
- Strong interpersonal skills and the ability to work independently and as part of an effective team
- Desire to learn, accept direction, and be mentored
- Strong verbal, written, and graphic communication skills
- Proficiency in Revit and AutoCAD. Proficiency in MS Office, including Word, Excel, and Outlook. Experience with Photoshop, Illustrator, InDesign, and Sketch Up graphic software preferred

About NorthStar

NorthStar is a multi-disciplinary civil engineering, architecture, land surveying, and environmental firm specializing in municipal infrastructure design, land development, onsite waste water systems, land surveying, environmental consulting, planning and development permit processing, and building design.

We exist to develop people that enhance our communities and thrive in a company culture where the team comes first before the individual; learning and mentoring is second nature; and every individual thinks and acts like an owner –taking active responsibility for the success of our endeavors, clients and communities.
