

Job Announcement

Architect II

About Us

Established in Chico, California in 1983, NorthStar is a team of professionals providing designs, plans and solutions in the areas of architecture, engineering, environmental, and surveying.

We exist to develop people who enhance our communities. This is our core purpose; NorthStar embraces the idea that we use our professions to make a positive difference for the clients, the community, and the environment...contributing to a better world.

We live our values of Teamcentric, Learning, and Ownership; more than just consultants, we are an integral part of the communities we serve.

Our success comes from building quality relationships with our clients; providing proactive service; and having an enriched team culture of learning, guiding, and mentoring.

NorthStar benefits include a generous salary, extensive health insurance package, 401(k) options, vacation and sick pay.

Additional company information can be found on our website www.northstareng.com.

Equal Opportunity Employer

NorthStar is seeking an Architect II to join our multi-disciplinary firm in Chico, CA. Come be part of an innovative and inspired group of design professionals in a collaborative studio environment with a commitment to quality and client satisfaction. More than just consultants, we are partners with our clients, agencies and the communities we serve - taking ownership of our work, performance, and the success of all our endeavors.

We are looking for candidates who are capable of orchestrating the timely completion of projects from drawing production through construction. This position is responsible for the daily design and technical development of assigned projects, coordinating and communicating with consultant teams, obtaining project approvals and overseeing construction administration.

The ideal candidate values community engagement, superior client service, and a lifetime of learning, with the opportunity for advancement in a challenging and professional work environment.

Position Requirements

- California architect license is required
- 6+ years of experience in an architecture firm managing design and production of Multi-Family Housing, Commercial, K-12 or Hospital/MOB projects
- Advanced Revit and AutoCAD skills with knowledge of Sketch-Up. BIM Management a plus
- Advanced knowledge of architectural practice, including design, documentation, detailing, building materials, building codes and construction technologies
- Complete understanding of each phase of the process (SD, DD, CD, and CA) as well as how to coordinate drawings accordingly.
- Competent knowledge of 2016 California Building Code, Title 24 Code Compliance, and ADA regulations
- Excellent written and verbal communication. Able to effectively communicate with clients, contractors, and consultants
- General knowledge of construction
- Proven ability to lead well in a team environment
- Dexterity to prioritize and manage tasks against deadlines and other metrics
- High level of organization and attention to detail
- Positive attitude, desire and passion to work within a team
- Highly motivated self-starter
